AGEING SKIN: Insights and Interventions

The Radisson Edwardian Hotel MANCHESTER 29th April 2010

The meeting will be CPD Approved

AGEING SKIN: Insights and Interventions

Objectives

Ageing Skin: Insights and Interventions is being held in association with the British Cosmetic Dermatology Group. This conference is one of the first to address both the science of skin ageing at the molecular and cellular levels, in addition to cutting-edge therapies and treatment options.

It is a unique opportunity for those interested not only in the practical aspects of facial rejuvenation, but the pathomechanisms of ageing skin.

Delegates will benefit from topics including:

- The effects of ageing on fibrillin
- The role of mitochondrial DNA & ageing
- How hormones influence the ageing process
- The role of p38MAP-kinase in premature ageing
- Comparison of botulinum toxins
- Psychological aspects of ageing
- The role of nutraceuticals in the cosmetic arena
- Periocular and Mid/lower face rejuvenation techniques
